Service Company Notification

To:	All Service Partners and their contractors, Field Services
Date:	16th September 2009
Subject:	Introduction of VDSL2 Splitters

Executive Summary

Chorus is introducing a VDSL2 splitter as a direct replacement for the current ADSL2 version that is stocked through Rocpac.

Product Overview

- Exactly the physical dimensions as the ADSL2 version

- Backward compatible for ADSL2 services

- Now has 3 pairs

  - Orange/White to incoming line

  - Blue/White to phone wiring

  - Green/White to DSL modem wiring

- Same Rocpac material number – **20021673**

- Product description for 20021673 is now - Chorus **VDSL Splitter V1**

- Reduced cost

Test Results and Telepermit

The splitters have been tested by Telelab Ltd for compliance to Telecom PTC 285: 2008 and Safety Standard AS/NZS 60950.1: 2003.

The splitters comply with all relevant requirements.

Full test results are available if required, contact Ian McCulloch.

The splitters have Telepermit approval from the Telecom Access Standards group.
